SHOW DAILY

DAY 2

PAMEX 2024 International Exhibition on Printing and Allied Machinery Industries OF THE PRINTERS - FOR THE PRINTERS - BY THE PRINTERS

WEDNESDAY, FEBRUARY 07 | FEBRUARY 06 - 09, 2024, BOMBAY EXHIBITION CENTRE, GOREGAON, MUMBAI

PAMEX 2024 OPENS ITS DOORS TO INNOVATION AND TECHNOLOGY!

With more than 500 exhibitors, 750+ live running machines and 150 product launches, PAMEX 2024 is going to be a printing extravaganza.

India's most valuable printing exhibition, organised by All India Federation of Master Printers (AIFMP) and Print-Packaging.com Private Limited (PPCPL), was officially declared open. With more than 750 LIVE Running Machines and 150 Product Launches, the Show is featuring more than 500 exhibitors from Print, Label, Packaging, Corrugation, Textile Printing and Signage Industry.

The dignitaries...

The inauguration was attended by Raghabendra N. Dutta Baruah, President, AIFMP; Umesh Neema, Hon.Genral Secretary, AIFMP; Anil Kariyawasam, Sri Lanka Association of Printers (SLAP); Manoj Mehta, Chairman GPEA Awards and President FAGPA; Raveendra Joshi, Past President AIFMP and President WPCF; Anil Arora, President, Print-Packaging.com Private Limited; Tushar Dhote, Chairman, Pamex 2024, AIFMP; Prakash Canser, Vice-President (West), AIFMP; Amit Shah, President, BMPA; Sanjay Patel, BMPA; Jaiveer Singh, President, IPAMA; Dilip Bhise, President, SPAI; Ravindra Reddy, AIFMP; Rahul Kulkarni – Co Chairman NAEP; Saubhagya Sakseria; Virendra Malik, Past President, AIFMP; and Shashi Sharma, Past President, AIFMP.

President AIFMP shares...

At the inauguration, Raghabendra N Dutta Baruah, President, AIFMP shared, "It is really a wonderful show. We did not expect that it would be such a great show after just one year but I think the industry is very happy and it has met our expectations. I hope that visitors get to know something new and something ground-breaking at this show."

Mini drupa!

While, Tushar Dhote, Chairman, PAMEX 2024, said, "Waking up on the 6th of February 2024 was amazing. Even before the show started, it is amazing to see the crowd that has come in and the amount of exhibitors that are here. The way the exhibition has shaped up is a marvellous thing. The equipment that you will see over here is what we will be seeing at drupa. Infact, it would be a preview of drupa."

Innovation Pavilion...

He also mentioned about the Innovation Pavilion in Hall 2, where a deep dive into the Futuristic Print Technologies will be shared by eminent speakers from the industry. "Visitors will get to know the trends in the industry," he shares.

Textile printing and signage...

The show is also focusing on textile and signage, which is a part of the printing. "Since everybody is moving towards sustainable things, so fabric printing and signage have become a big thing," adds Tushar.

NAEP Award Gallery

Visit C12 in Hall 1 to explore some of the amazing works from the Indian Printers. "You will see the marvellous print exhibits, which the Indian printers have done," concludes Tushar.

India's first RICOH Pro C7500 delivers to Ahmedabad's Diva Digital Imaging

RICOH Pro C7500, an immediate successor to the RICOH Pro C7200 and which Monotech Systems recently introduced in India, right away finds Diva Digital Imaging in Ahmedabad as its first owner in Gujarat. Diva Digital Imaging is now witnessing the crack of a new dawn of *quality* and *innovation* in digital printing using this newly installed RICOH Pro C7500 from Monotech Systems, a leading machine manufacturer and one-stop solution provider for the printing and packaging industry globally.

At the ongoing PAMEX 2024, Monotech Systems sheds spotlight on RICOH Pro C7500 as one of the key products. Designed for going beyond CMYK with its 5th Color Station, this special colour station of the press delivers *white* and invisible ink enhancements for luxury print effects. It is capable to run at the speed of 95ppm (pages per minute) flexibly on a broad range of lightweight and heavyweight media (40–470gsm) for stunning graphic prints in resolution of 2400×4800dpi.

Diva Digital Imaging is a long and continuing lineage of three generations of a family-owned photo and photography business. Backed by a strong team of 45 skilled professionals, which include graphic designers, professional photographers, printing & production staff, Diva Digital Imaging is on the pathway to capturing newer market domains using the newly installed RICOH Pro C7500. The company is now focusing much on 'labels' which would be pulled off flawlessly using the advanced features and prowess of the new RICOH Pro C7500.

Canon India sheds spotlight on new Canon imagePRESS V1350

C Sukumaran, Sr Director, Canon India and Norihiro Nick Katagiri, Sr Vice President, Canon Singapore

Canon India at PAMEX 2024, showcasing a fleet of ground-breaking machines & applications, is shedding spotlight on its recently unpacked Canon imagePRESS V1350. This new-generation Canon imagePRESS V1350 is known for its speed which can gallop as a workhorse at the speed of 135 A4ppm (pages per minute). This faster speed of the digital production press is the outcome of Fiery Server which is bundled with the powerful HYPER RIP for processing eight print files simultaneously.

Canon imagePRESS V1350 is designed to help printers precisely control quick calibration for faster, easier, and reliable colour management. When it comes to accuracy, all new Canon imagePRESS V1350 produces prints with +/-0.5mm registration tolerance which in turn makes duplex printing highly accurate and precise. It comes with

'Standard Suction' feeding from all four trays offering seamless feeding of variety of media like stickers, boards, and other textures. Canon imagePRESS V1350 boasts an impressive duty of offering up to 2.4-million A4 prints.

The newly unpacked Canon imagePRESS V1350 is the latest addition to Canon's existing line of ground-breaking imagePRESS V Series presses comprising imagePRESS V1000/V900/V800/V700. Canon imagePRESS V1350, in addition to its speed and advanced features, is a versatile to take up a broad range of lightweight and heavyweight stocks which would be up to 500gsm. After all, the digital production press can churn well on many unconventional media like synthetic papers and many others.

Visit Canon India at Stall B-20.

Fiery Solutions

fiery

Impose

Fiery® Impose, an intuitive PDF-based imposition solution, streamlines and automates the job setup process. Its tight integration with Fiery Command WorkStation®, makeready, and prepress tools increases production efficiency.

Canon MINOSHA MONOTECH SYSTEMS LIMITED xerox FUJIFILM Value from Innovation

FUJIFILM India launches flagship 3 A3 Colour and 2 Monochrome Multifunction Printers

At PAMEX, FUJIFILM India has launched five new models of A3 colour (Apeos C3570/C4570 /C5570) and monochrome (Apeos 4570/5570) multifunction printers. These five multifunction printers under the "Apeos series" focus on addressing diverse printing requirements with their high speed and excellent print output capabilities. They fulfil various customer printing requirements such as the paper size of SRA3, the paper weight of 52-300 gsm and banner printing of up to 320 x 1200mm. Furthermore, to support remote workstyles in the large enterprises and corporates, the products allow seamless integration promoting cloud connectivity and operational efficiency regardless of time and location. Users can print from anywhere with Universal Print, the Microsoft cloud-based printing solution, eliminating print servers and the need to install printer drivers.

The printers offer class leading print resolution of 1,200×2,400 dpi produces vivid life-like images on paper and single pass dual scan functionality as standard for enhanced scanning capabilities at a speed of 160 pages per minute making scanning operations efficient.

"After the initial launch of the Apeos printers in September, the Office Printer business of FUJIFILM India has further cemented its position as a leading partner providing value to a wide range of customers," said Koji Wada, Managing Director, FUJIFILM India. "By adding new multifunction printers from the Apeos series to our office printer product portfolio allows our customers to have more choices to meet their different needs. India is very adaptable and fast in adopting new technologies to gain growth and as the key partner to our customers, we want to help them to be at the forefront of their industry by providing new products and solutions quickly."

While, Priyatosh Kumar, Associate Director & Head, Graphic Communications & Device Technology Business, FUJIFILM India, adds, "These versatile products can provide excellent value to various industries such as corporates, enterprise companies, and jobbers. Customers who are looking for cost effective, yet well-balanced printer equipped with top-notch security capabilities will definitely benefit from increased work productivity and efficiency, and high quality vivid printouts."

MONOTECH® SYSTEMS LIMITED

Emerging Graphics redefines corrugation + honeycomb applications

Emerging Graphics' stall at PAMEX 2024 sports a unique look which attracts visitors. Here's why and how. "We have created our stall using highly robust, innovative and totally eco-friendly corrugated and honeycomb materials," says Tushar Pande, Director, Emerging Graphics India Pvt Ltd. He adds that the applications are the samples which they would like to show their customers as well as trade visitors the newer possibility of corrugated and honeycomb materials.

Walls, furniture and many other items flaunting around the Stall of Emerging Graphics are made of corrugated and honeycomb materials. "In the pre-press process, we flawlessly create the designs of the end-products using EngView package & display designer suite, which is integrated CAD/CAM software for designing. Then, the products are printed on highly advanced KingT flatbed system," tells Tushar. Among the displaying products at the stall of Emerging Graphics include iECHO finishing system.

Visit Emerging Graphics at Stall B-30.

Printing consumables @ Ace Color

Ace Color is one of the leading printing material trading firm, offering printing consumables used in offset printing. The company is displaying offset rubber blanket, creasing matrix, offset CTCP and CTP plates at the show.

Zund India finds owner of its S3 digital cutter

Zund India is pulling attention of trade visitors to the live demo of its newly introduced Zund S-3 L120 digital cutter. Prasanna Venkatesh, Managing Director, Zund India Pvt Ltd, mentions that this newly unpacked digital system boasts modular design for maximum flexibility and speed. "We just recently brought the machine directly from Switzerland and now we have found its owner in India, which we will be announcing at PAMEX 2024," he adds.

Zund S3 digital cutter is available in six different cutter sizes, offering users the perfect machine size for broad range of applications. It's intelligent, efficient, and ready for the future. In addition to some flagship products like S3 digital, Zund India at PAMEX 2024 is presenting a host of productivity enhancing software designed for automating production workflow from data import and optimization to cutter control and production monitoring.

Visit Zund India at Stand I-140

UV Graphic Technologies showcases Ultraflex UFO

UV Graphic Technologies is displaying its dual servo ten Ultraflex UFO 450-mm press. Apart from the fully LED UV System, the machine is equipped with extended hot dryers which help to print with speeds up to 150-m using water and solvent-based inks, including white inks, which is a key requirement in the flexible packaging space.

Also on offer is video plate mounter, the Ultraflex AF 750, with 100% inspection slitter-rewinder with speeds of 350-m/min.

According to Abhay Datta, Director,UV Graphic Technologies, last PAMEX has been successful for them and they expect a good show this year as well. "We are displaying a flexographic film and label printing machine, which is twin servo, specifically designed for film and label.We expect a good footfall and we hope that we will have many visitors and customers," he shares.

Visit UV Graphic Technologies at Stall: H05

Aum Label Machineries @ PAMEX

Aum Label Machineries is offering tower label flexo printing machine - compact and easy machine to boost your business with high productivity and flatbed printing machine for precision results of half punching.

Konica Minolta premiers three machines at PAMEX

Konica Minolta has created a platform to enhance value-based business with high- quality and substantially-innovative graphic prints, revealing its line of highly competent production and industrial presses. "We have made two different business demonstration areas. One area is where we are showcasing machines, and other area we are showcasing applications, so that the customers know what all products you can make with the machines, right from production printing to our digital embellishment machines, label printing machines, etc and we have made new applications like pouches, IML applications, etc. We are also displaying certain specific samples for Accuriojet KM-1e machine," shares Vijay Kamat, Product Manager IP - PP & IP Marketing, Konica Minolta Business Solutions India Pvt Ltd.

"Our key products on the show include the AcurioPress Series presses for colour production. In addition, some of our industrial systems like iFoil One, AcurioShine 3600 and JETvarnish 3D are also part of the major highlights," he adds. "This way people can visualize what all products they can manufacture and what are the trends in the market when they go for the investment of the machine. This is how we want to bridge the gap," he shares.

On asking about the focus at PAMEX, Vijay shares that they are showcasing three latest machines, including Cypress production printing press, AccurioLabel 400 digital label printing machine and AccurioShinei Foil One, which are shown for the first time.

"At PAMEX,our expectation is that customers should come and experience what we are demonstrating. Konica Minolta is leading digital technology in the market and as a leader, it is our duty to showcase new technology and new applications," conclude Vijay.

Visit Konica Minolta at Stall: C30/C32.

Komori sold 7 machines on Day 1 at PAMEX

Komori India has sold five machines on Day 1 at the show. These include 3-GL Advance740 C+UV+IR, 1-Perfector LP140, 3 Enthrones E429. "We successfully participated in the PAMEX 2023 last year with the closing of 20 orders during the expo, and we wish to sell similar number this year," shares Jitender Rohilla, General Manager-Sales, Komori India.

The company has also launched Komori Perfector 40 (LP-140/A 40 Convertible Perfecting Offset Printing Press) and KP-Connect (Connected Automation) for the Indian market.

Komori Perfector 40 LP-140 is suitably engineered for thin paper printing in high-speed with exceptional quality and stable two-sided one-pass printing at 13,000 sheets/hr. "This offset press is indeed a 'perfect press for a variety of single-colour and two-sided jobs," says Jitender Rohilla. "While demand for multi-coloured printing continues to rise, KOMORI has developed this press to meet the persistent demand for single-colour printing ofitems such as dictionaries, paperbacks, study aids, user manuals, and pharma inserts." Providing superior print quality, eliminating common issues faced by two-sided machines, KOMORI PERFECTOR 40 LP-140 is designed with KOMORI's amassed expertise in machine safety, durability, and operability. With service and support, the offset press can be relied upon for years to come.

On other side, KOMORI is presenting KP-Connect for effective use of printing operation data. This printing task control software is positioned between the MIS and production site that makes complex task control visible and enables anyone to share the latest operating information in real time. "Capable of integrated control, including schedule creation and distribution & production results collection, KP-Connect is designed for both offset presses and digital printing systems," he mentions.

In addition, information in KP-Connect is made visible in real time by digitising the operating schedule table and daily operating report. Suitably designed for packaging converters, commercial and book printers, Komori is targeting 50 installations by the end of FY 2023-24. Komori already has more than 65% market share which is expected to increase in FY 2024-25.

Consumables @ Alpap Group

At PAMEX, Alpap Group is showcasing a variety of its products, from Phoenix German printing and coating blankets to Cosmo lamination films and synthetic paper, Garware window films, Polyplex transfer metallised paper, Hausleiter Haco pack calibrated under packing sheet, etc.

Abrar Kherani, Managing Partner, Alpap Group, said, "The highlight at this show is Phoenix Nova spot coating plate for varnishing applications and eight-micron coated metallised film for UV printing." He looks forward to a good show.

Visit Alpap Group at Stall: C65.

TechNova showing cutting-edge imaging eco-system

Under the theme 'TechNova Imaging Eco-system: Dependable. Sustainable. Profitable', TechNova Imaging Systems is showcasing products across three distinct categories. A focal point is the Packaging Solutions, where attendees can experience live demonstrations of the HP Indigo 6K Digital Printer from the TOUCH demo center and delve into a full suite of Flexo solutions. The Digital Solutions segment boasts an impressive line-up comprising the latest Konica Minolta digital production presses, post-press devices & digital embellishment devices from Duplo and digital cutting tables from Jwei.

A steadfast commitment to environmental stewardship is evident in TechNova's Green Solutions. The segment introduces ground-breaking products like Kratos – thermal zero-process, direct-on-press digital plate; chemistry-free Violet digital plates, VioGreen and an array of Green Chemicals. Looking ahead to 2024-25, TechNova envisages a stable yet growth-focused market trajectory in India. TechNova invites its customers to join them at PAMEX 2024 for a first-hand experience of the future of printing technology.

Visit TechNova at Stand B-01

Pratham Technologies launches automatic paper folding machine

At PAMEX, Pratham Technologies has launched two new products – a fully automatic commercial folder and the double taping machine. Additionally, they are displaying a 12 pocket outsert folder with 2 knives and a Super Inspect machine for printing QR code along with size and glue detection. The company is also displaying a 6 pocket insert folder with a 53mm width.

"We are specialists in pharma inserts outserts machines and it is our main strength. But, here we are showing something new which is variable data printing on the outsertsas well as a double taping system," shares Datta Deshpande of Pratham Technologies.

On asking about their expectations from the show, he replies, "Expectations always come with the business,but actually we know that PAMEX will always be successful. We really don't come with some expectations, but we are always happy with PAMEX, as they always give us better customers."

Visit Pratham Technologies at Stall D25.

Webtech International launches Labeltech X2 Series

At PAMEX, Webtech International has launched LABELTECHX2 SERIES state-of- the-art 8 Colors Semi-Servo Flexo Press, which boasts an impressive array of features, providing unmatched precision, flexibility, and efficiency.

At the heart of LABELTECH X2 SERIES lies its robust structure and revolutionary design. Built on a common base, this flexo press ensures stability and reliability during every printing operation. The visually stunning and ergonomic design not only enhances the machine's aesthetic appeal but also contributes to its operational efficiency, making it a standout choice for industry professionals.

With 8 individual touch screen HMI controls overseeing 8 printing stationsin a 330 mm working width, this flexo press offers unparalleled control and customization. The incorporation of 4 servo drives, 8LED UV units, and advanced features such as Pneumatic Reel Load/Unload, Corona Treater, Web Cleaner, Web Guide, Electronic Brake, Turnbar, and Static Charger make it a versatile and powerful solution for your printing needs.

Session 13	11.45 - 12.15	Ashish Anand, Future of Security Printing: Copy-proof QR codes on Standard Print-lines
	12.15 - 12.30	Break
Session 14	12.30 - 1.00	Prashant Atre, UV – The GROWTH Driver
	1.00 - 2.30	Lunch
SESSION II		
Session 15	2.30 - 3.30	Ranesh Bajaj, Smart Packaging - Connected
	3.05 - 3.15	Break
Session 16	3.15 - 3.45	Venkat Janardhan, The Potential of 3D Printing Technology in the Modern World
	3.45 - 4.00	Break
Session 17	4.00 - 4.30	Hemanshu Desai, Automation in Pre-press
	4.30 -4.45	Break
Session 18	4.45 – 5.15	Dr Ashutosh Tripathi, Printed Electronics – From Convergence to Creation

DAY 04		
SESSION I		
Session 19	11.00 - 11.30	Venkat Janardhan, The Potential of 3D Printing Technology in the Modern World
	11.30 - 11.45	Break
Session 20	11.45 - 12.15	Ashish V Urewar, Indian Printing Standards
	12.15 - 12.30	Break
Session 21	12.30 - 1.00	Dharamraj, AI in Design
	1.00 - 2.30	Lunch

Ashwin Enterprises showing flagship Vulcan systems

Ashwin Enterprises, one of the leading providers of printing and print finishing systems, is pulling crowds to its colossal stall at PAMEX 2024, showcasing a line of products including Vulcan digital finishing systems. Ashwin Enterprises is the authosised Vulcan distributor in India. "We are present in five states across India," says Vinod Badra, Managing Director, Ashwin Enterprises. He adds that they have so far installed near about 1000 Vulcan finishing systems.

A regular to every edition of PAMEX, Vinod is quite optimistic about this expo. "We are quite impressive about the way this expo is organised and pulls the right visitors who are focused and business oriented," he says. He further mentions that they are witnessing tremendous footfalls even on the first day of the expo. Team Ashwin Enterprises is elated as they could pre-book 45 Vulcan machines on the first day of the show.

Visit Ashwin at Stand B-23

Arofine Polymers showcases Arobond range of adhesives

At PAMEX, Arofine Polymers is showcasing Arobond S 230089 and Arobond 657 adhesives for printing, packaging, flooring, furniture and labelling application."We are expecting a good number of quality visitors at the show," shares Mandar Bankar, Sales Executive, Arofine Polymers Pvt Ltd.

Silicon Infotech launches HandTop UV HT1800

Mumbai-based Silicon Infotech, an authorised distributor of HnadTop and many other brands in India, announces the launch of a new HandTop printer — HnadTop UV HT1800. "This newly introduced 1.8m HandTop UV printer is an upgraded model, perfectly designed for enhancing wall graphics in a way that has never done before," says Krunal Jivani, Business Partner, Silicon Infotech. He adds that this UV printer is a game changer in wall graphic applications as it can produce stunning graphics on wall papers using its CMYK + white + varnish.

In addition to the newly launched flagship HandTop UV HT1800, Silicon Infotech is showcasing another flagship product—MIMAKI UCJV330 Series. Krunal says the MIMAKI printer is yet another flagship and highly demanded UV printer from Silicon Infotech. He conclusively mentions that PAMEX 2024 is the right platform for networking and unleashing flagship products and technologies.

Visit Silicon Infotech at Stall D-03.

Acme Machinery displays automatic carton folder gluer machine

Acme Machinery India Pvt Ltd is displaying Automatic Carton Folder Gluer Machine with all modules for doing mono carton, e-flute cartons & f-flute cartons and Semi-automatic Flute Laminator Machine.

German engineering that will change your thinking

BX Motion Pro

Our most powerful boxmaker ever

A ground up redesign is at the heart of this brand new generation modular boxmaker from **KOLBUS**. It allows custom specification for each module to meet your exact needs, including:

Heavy Duty box making

■

In line digital or flexo printing

■

In line gluing

■

Single person operation

■

Waste management system

In short, the **BX Motion Pro** is your very own personalised boxmaking solution.

The RD 115S

Rotary Die Cutter with Flexoprint

- Cut and print up to 8 colour at 12,000 p/hour
- Top-print for inside box printing in one pass
- Fully servo driven for precise image control
- Registration camera for instant, super accurate monitoring and adjustment
- Sensible lead-time for delivery

HIGH QUALITY

■

HIGH OUTPUT

■

HIGH EFFICIENCY

For more information on how the new **KOLBUS RD 115S** can give you complete control for a refreshingly competitive price.
