

# SHOW DAILY 4

FRIDAY FEBRUARY 09

FEBRUARY 06 - 09, 2024, BOMBAY EXHIBITION CENTRE, GOREGAON, MUMBAI

## PAMEX 2024 DRAWS RECORD VISITORS

### MULTIPLE MACHINES SOLD AT THE SHOW!

PAMEX 2024 has proved once again to be an irresistible magnet for industry enthusiasts, drawing in a substantial influx of visitors eager to explore the latest innovations in print, packaging and allied industries. The halls are bustling as attendees are engaged with exhibitors, witnessing cutting-edge technologies first-hand. Amidst the vibrant atmosphere, a flurry of deals continue to strike. Exhibitors are happy to network with new and existing customers and have sold multiple machines at the show.

### Komori sold 17 machines at the show

Komori India sold 17 machines at PAMEX. On first day, they sold three GL-740A C UV IR, one LP-140, one GL-437 and two E-429.

On second day, they sold one GL-437, two E-429, one GL-629 C IR and one GL-637 C IR.

On third day, they sold three E-429, one GL-437 and one GL-437 C IR machines.

Visit Komori at Stall: D02.

### MACHINES SOLD

#### Avantika Printers books Canon imagePRESS V1350 during PAMEX 2024

New Delhi-based Avantika, which is recognised for using a line of high-end machines and engaged in wholesome high-end digital printing, has booked the new-generation Canon imagePRESS V1350 during PAMEX 2024. On the new investment, Himanshu Pandey, Director, Avantika Printers Private Limited, says, "We choose this newly launched Canon imagePRESS V1350 for its media versatility as it can print seamlessly on varied range of media, other than paper, such as PVC stickers boards and many other textures." He adds that this new Canon digital workhorse is capable to run at the speed of 135 A4ppm (pages per minute).

Himanshu mentions that the new Canon imagePRESS V1350 will be installed at Avantika Printers' Greater Noida unit which is for packaging printing. "We were looking for a digital production press which can handle high-end packaging print graphics. Our current capacity is to produce 300gsm graphics, which will be upgraded to 500gsm using the new Canon imagePRESS V1350," he adds. Versatility of the new Canon digital production press is that it takes up a broad range of lightweight and heavyweight stocks up to 500gsm.

Visit Canon India at Stall B20.

#### DGM sold 8 machines at the show

DGM sold 8 machines at the show, with seven customers, told Puneet Kumar Aggarwal, Managing Director - Indian Subcontinent, DGM. The company is showcasing the newly launched DGM Technocut 1050S Automatic Diecutter with or without stripping unit and DGM Smartfold 1100SL Automatic Folder gluer with capability to run straight line, crash lock bottom, 4/6 corner design duplex 200-800gsm and 3Ply upto 20mm folded thickness runnability.

Visit DGM Automation at Stall: E02

#### Sona Graphic Machinery sold 3 machines

Hamant Garg, Sona Graphic Machinery informed that they have sold three machines so far and seeing the good number of footfalls, they expect to close many more deals at the show.

**hubergroup highlights food-safe inks at PAMEX**

hubergroup offers MGA low-migration, oxidative-drying, sheetfed offset inks for the manufacture of food packaging on non-absorbent materials. "We are a regular participant at PAMEX. The footfall as seen last year is very good. PAMEX gives us platform to network with our customers and an opportunity to showcase them our sustainable product offerings," shares Bhavesh Bhatt, General Manager – Sales & Marketing, hubergroup India Pvt Ltd.

hubergroup sales & technical experts on the stand are available to share conversations about their comprehensive offerings in Sheetfed & UV packaging, narrow labels, as well as screen printing inks.

"We eagerly anticipate to discuss our sustainable and eco-friendly solutions with you," concludes Bhavesh.

**Exciting offers on Heidelberg's Prinect workflow and Gallus solutions**

Heidelberg is present at PAMEX after a long time. "We are participating in PAMEX after a long time and this time we are concentrating more on our Prinect workflow for packaging," says Samir Patkar, President, Heidelberg India. Prinect offers an integrated workflow for all printing needs – from the design and development of print products to printing all the way to cutting, die cutting and gluing –merged into one end-to-end workflow. "Many packaging printers have come and taken our demo here," he shares.

"Also on focus are the Heidelberg complete press solution and Gallus machine for flexo packaging, which can handle labels, press sensitive labels, lamitubes, etc," shares Rajendra Prasad, Marketing Manager, Heidelberg India Pvt Ltd.

Besides, the company is also focusing on service and consumables division. "Under the theme, Unfold Your Potential, our entire bouquet of products are available at PAMEX. Right before drupa, it will be helpful for us to meet customers and invite them to drupa. At PAMEX, visitors can also meet our product experts. We got a good number of walk-ins, especially on day 2 and we expect similar walk-ins today," he said.

Heidelberg is giving special offers on their spare parts and services for visitors at PAMEX.

### Alpna Visual sold Rhino Dexa to Atharva Packaging

At PAMEX, Alpna Visual Packaging Aids sold Rhino Dexa to Atharva Packaging. RhinoDexa twin-deck coater series is a one stop multi function offline coater from the pioneer of off-line drip-off technology based on rugged, high speed Heidelberg platform and a well established eco-system for operators/ spares/ service etc. The machine is designed and built for heavy duty round-the-clock operation for handling medium to high volumes offering great flexibility of various coatings like Drip-Off, Spot UV/ Aqueous, Primer coatings and many more.

Visit Alpna Visual Packaging Aids at Stall: D05.

### Excel Machinery offers automatic die-cutting machines

At PAMEX, Excel Machinery (Gujarat) Pvt Ltd is displaying its automatic die-cutting machines Maxima EXB35 (25x35-inch), Maxima HS1020 (28x40-inch) and automatic blanking machine Maxima BL 1080DH.

Jitendra Patel, Managing Director, Excel Machinery, shared that they are happy with the show and got some good inquiries at the show.

Visit Excel Machinery (Gujarat) at Stall: B80

### Find speciality papers @ Sona Papers

If you are looking for premium speciality papers, then Sona Papers stall is for you! According to Anup Verma of Sona Papers Pvt Ltd, they have recently tied up with Fedrigoni for premium range of papers and they hope to get good response for them. "PAMEX is a good show and we are here to meet our customers and showcase the range of papers we deal in," he added.

Visit Sona Papers at Stall: A20

### Associated Enterprises @ PAMEX

Associated Enterprises (Sujata) offers corrugation machinery, post press machinery and allied machines for printing and packaging industries. "At PAMEX, we typically don't display products as they are very heavy. But, it is a good event and brings in serious quality visitors. That has been our experience and expectations in the past and the last two days have been similar on these lines," shares Rachit Gupta, Director, Associated Enterprises (Sujata).

Rachit further shares that they have 25,000 clients in India. "A lot of those people come in and get a chance to meet us. So, it is a good platform to connect with existing customers and get in touch with new customers," adds Rachit.

## NBG sold paper bag making machine to Aristo Eco Pack

**N**BG Printographic Machinery has sold their paper-bag making machine to Aristo Eco Pack. This machine is used to make paper shopping bags with flat handles inline (handles folded inside the bag or upright when coming out) fully automatically.

Besides, the company is offering HM- DP4030N and HM-DP4030M automatic rigid box-making machine at the show.

**Visit NBG Printographic Machinery at Stall: H06/H10.**

## Wathour systems sold 10 machines at the show

**V**enkataramana Graphics and Wathour are showcasing VJET Spot UV Printing System designed and developed for short run Digital Printing applications. Without need to use plate or screen, VJET SPOT UV provides the right solution to get high quality of embossing spot coating in short run or long run job. Variable data can be set-up quickly and runs the job fast. As per BV Krishna Prasad, Managing Director, Venkataramana Graphics Pvt Ltd, they sold 10 machines at the show.

**Visit Wathour Systems at Stall C70.**

## Xerox India shows solutions for going beyond CMYK

**X**erox India at PAMEX 2024 is demonstrating a gamut of digital production printing presses and enhancement solutions for print providers who are looking for boosting business to all new level and those who would like to revive the losses during the pandemic. "The portfolio of products now showcasing here at our stall in the show are for fulfilling the needs of our customers who really wish to increase productivity. So, the portfolio is focusing on our pre-press and wastage control solutions along with some key digital colour production presses," informs Shankaracharya Laskar, Sales Director, Technology and Channels.

Some of the key digital production presses now showcasing at the Xerox India stall include Iridesse, Versant 280, PrimeLinkC9070, among others. Another key highlight at the company's stall which potentially pulls crowds includes post-print enhancement solutions designed for going beyond conventional four-colour gamut, aiming at highly reliable 'security printing' and many other packaging applications. Also, currently showing at the company's stall as key products are MFPs like Altalink C8130 and Versalink C7120 which are engineered with easy-to-use interfaces.

**Visit Xerox India at Stall C20.**

## RSG Solutions offers bouquet of products

**R**SG Solutions is offering a whole bouquet of products, from sustainable solutions to cutting-edge technologies, offering invaluable insights and inspiration for shaping the next generation of packaging solutions and provide an unparalleled opportunity to explore the future of packaging. On display are CGS ORIS Real Substrate Proofing for Mockups or Prototype Proofing Solution (Newly Launched); EPSON Large Format Printers for Proofing; EIZO True Color-Hardware Calibration Monitors For Softproofing; Fiery Color Management RIP Software; TECHKON Spectrodensitometers and PRESSIGN Press Analysing and Standardising Software.

**Visit RSG Solutions at Stall B85.**

## Sai Enterprises sold 3 machines on first 2 days

**S**ai Enterprises is showcasing the HPM fully automatic paper-cutter of 115-cm size. It is an automatic programming cutting machine which can store 200 programs and each program can store 200 items.

It has highly sensitive touch screen for real time performance while manual and automatic operations can be switched rapidly as per user convenience. It also has electronic knife locker to avoid knife-sliding.

As per S Dayaker Reddy, Sai Enterprises, "This is our seventh PAMEX exhibition since our company's inception. I would like to congratulate AIFMP and Team Print-Packaging.com for organising one of the best PAMEX exhibitions till date. Infact, many exhibitors were little skeptical about the show being held after a gap of 11 months but the response at the show means that the industry is prospering. Yesterday, we had huge footfalls and we have closed a few deals also on both the days and we hope to close many more deals in the next two days. We closed one deal on Day 1 and two deals on Day 2 for paper cutters."

He, however, suggests that PAMEX should give little extra time to discuss with visitors who are already present in the show at the closing time.

## Ample Graphics seals three deals of lamination machine

During PAMEX 2024, Ample Graphics, a one-stop provider of machines from leading overseas brands, announces the introduction of a new automatic Tiancen high-speed lamination machine manufactured by Shanghai Tiancen Machinery Manufacture Co Ltd. The machine has been booked by three different companies during the expo. "It has been a feeling of pride for us to say that we have sealed three deals of our newly launched automatic high-speed dry lamination machine with hot knife," says Rajeev Jagga of Ample Graphics. The newly launched high-speed lamination machine is designed to run at the speed of 100 metres per minute. It is equipped with electro-magnetic induction and hot oil circulation system. "PAMEX has always turned out to be a good platform for us to introduce new products and connect with our customers," mentions Sachin Kala of Ample Graphics.

Visit Ample Graphics at Stall E21.

## Tridisenno @ PAMEX 2024

At PAMEX, Tridisenno India Limited is offering DOD Inkjet machines from Reajet, Germany; thermal inkjet printers from Dotjet Inc, Taiwan; laser machine, DOD printers from Fem International and CIJ Ideal Marking Solution from Leibinger Germany.

Visit Tridisenno India Limited at Stall: I04

## JK Steel Enterprises sold 4 machines

At PAMEX, JK Steel Enterprise (Amritsar) is offering auto bending machine, creasing cutting machine, rubber and sample maker, cutting and creasing rules, etc. The company has sold 4 machines at the show. These include laser machine (600W); two Bender Pro-32A and 1 Pertinax rubber & sample maker.

Visit JK Steel Enterprise (Amritsar) at Stall: G46

## Sneha Graphic Solutions sold 2 machines

Sneha Graphic Solutions offers all types of used offset printing packaging and publication machine supply and supports. At PAMEX, the company has sold 1 Komori LS 426 (model 2012) to Rainbow Offset Printers, Jaipur and 1 Komori LS 440 (model 2006) to Hitech Digital Plates (I) Pvt Ltd, Jaipur, shares Manoj Kumar Prajapati of Sneha Graphic & Solutions.

Visit Sneha Graphic Solutions at Stall E06.

## Condot launches new flagship peizo inkjet system

Condot Systems, a complete solution provider for track and trace, pharma serialization, marking and batch coding, inkjet printing, vision and transport systems, has introduced a new CSPL 108 AK peizo inkjet system during the ongoing PAMEX 2024. This is one system to command and conquer all. It is based on drop-on-demand, high resolution, high speed, low ink consumption and larger print area. "CSPL 108 AK imparts high resolution prints with an impeccable printing accuracy and precision at the speed of 180m/min," mentions Kinal Chiniwala, Vice President – Operations, Condot Systems Pvt Ltd.

Single controller system of CSPL 108 AK is designed to support up to 8 printheads of 108mm up to 892mm of stitchless printheads. "This machine can be used for multi-purpose applications like traceability, brand protection and brand royalty programme in a single large print window on wide varieties of substrates," says Priyal Chiniwala, Executive –Customer Support, Condot Systems Pvt Ltd.

Visit Condot Systems at Stall G26.

## Epson offers SurePress UV digital label press

At PAMEX, we are focusing on SurePress UV digital label press, which offers exceptional print quality across a wide range of label substrates with consistent colour reproduction and precise colour matching for solid and opaque printing, even on materials such as clear film and metallic substrates," shares Ramprasad SM, General Manager – Sales & Marketing, DTF Solutions & Label Press Solutions, Epson India Pvt Ltd.

"Today, we got outstanding response from label converters who are looking out at digital solutions which can give the speed they are looking for. Along with the wide web, they can do lot of applications. Added to this is the digital varnishing. So all these processes can be done on the same machine. So you can do routine labels as well as value-added labels on this machine. We are at the verge of 2-3 prospects to close the deal at the show. We expect first installation in this financial year itself," he says.

Meet, Connect, and Grow—this is what we are privileged here at every edition of PAMEX. Even before visiting drupa 2024, PAMEX 2024 gives us some insights into the growing segments whether it's commercial printing or packaging sector.

*-MN Pandey, Managing Director, Avatika Printers Private Limited, New Delhi*

PAMEX is indeed a good expo in India. This is a place where we observe the market trends and tradition of the sub-continent's printing industry, UV Graphic Technologies is our partner in India and they are doing great job. It's quite exciting to see the growing printing and packaging market of India, which is visible in this expo.

*-Holger Selenka, Area Sales Manager, Vetaphone Corona & Plasma, Denmark*

It's good to see the growing label market in India with a lot of innovations and latest technologies keep unleashing. I have had closely involved when the organisers of this show started to launch the expo. Today, this show is quite mature and I am here to support them, always and ever.

*-Harveer Singh Sahni, Chairman, Weldon Celloplast Limited, New Delhi*

I am closely connected with a host of students from one of the leading printing technology institutes in Maharashtra. My visit to this expo is to examine the trends and technologies showcasing impressively on the show floor. Then I will share it with the students.

*-Rahul Ingavale, Aqua Prints, Kolhapur, Maharashtra*

# German engineering is committed to quality

## The KOLBUS DA 370 State-of-the-art casemaking

Casemaker for the production of book cases with suitable equipment for the digital workflow. Optimisation and automation of all processes for digital print processing.

**Faster production**

■  
**Unbeatable quality**

■  
**Shorter make-ready times**

■  
**50% Higher output in digital modes**

■  
**Customisable equipment  
(digital and conventional)**

**KOLBUS** present the **DA 370 Casemaker** with optimised design for high-performance case production for a wide range of product requirements.

## The BLW 200 Wrapper Production system for rigid box packaging

- Innovative turn-in technology
- Non-stop wrapping of all four box sides
- Processing for each side can be optimised separately
- Continuous transport, constant production speed
- Precise automated edge turning for deep and shallow turn-ins

**Innovative engineering  
for packaging production  
using paper, board and grey board**

For more information on how the new **KOLBUS Box Line** is suitable for a wide range of packaging production for rigid box packaging in outstanding quality.

**The Evolution of Print.**
