Bombay Exhibition Centre  
Goregaon, Mumbai

Organiser:  
ALL INDIA FEDERATION OF  
MASTER PRINTERS

In Association with:  
PRINT-PACKAGING.COM  
(P) LTD.

## PREVIEW NEWSLETTER # 02

### “PAMEX 2017 is all set to see a 50% growth than last edition”

shares Tushar Dhote, Chairman, PAMEX 2017, AIFMP and President, Mumbai Mudrak Sangh. Here, he tells about the major attractions at the show and more. Excerpts.

**What is the growth in the Indian printing industry?**

**Tushar:** India is one of the few countries which is growing in print. There is a tremendous growth in the Packaging sector, which is growing at a rate of 15% per annum while the commercial and books segments are growing at a rate of 5% per annum. In my opinion, the GST implementation will definitely result in optimistic growth in the near future, once the process settles down.

**What according to you are the strengths and weaknesses of the Indian printing industry?**

**Tushar:** The biggest strength of the Indian printing industry is that we are

Tushar Dhote

very quick learners in adopting new technologies and innovative printing techniques. Printers crave to learn new

things and fearlessly implement them at work.

The biggest weakness I think is the shortfall in trained shop floor workers and supervisors. Also, the Indian printers need to understand their workflow properly and plan their print shops in a very systematic way. Their selection of equipment should be very precise to their job profile and should not be haphazard. They should

Pre-press and Post-press equipment, live demonstrations and product launches. Also, there will be a good international participation of exhibitors from China and Japan. So, we will see a lot of running equipment in the Press and Post-Press segments.

**Q: How many visitors are you expecting at the show and from which areas?**

have more tools to control a seamless operation of the press.

**What is the total expanse of the fair? Is it in sync with your targets?**

**Tushar:** Well the PAMEX'15 had sold 7400 sqm net. We expect PAMEX 2017 to close between 10,000 and 11,000 sqm. This would mean a growth of 50%, which by any standards is not bad. We had kept our target at 12,000 sqm sight, which we may or may not achieve before the close. GST has had impacted the industry as it is still in its nascent stage and exhibitors are hit with orders which are not materialising due to banking problem. I am sure things will settle down by this financial year end.

**What can the visitors expect at the fair?**

**Tushar:** There is a proper mix of exhibitors ranging from Digital, Offset,

**Tushar:** The last PAMEX saw a footfall of around 44,000 visitors, especially from the West and South India. This time we plan to do road shows across 54 towns in all over India and two international road shows in Bangladesh and Sri Lanka, inviting participation from international visitors too. We definitely expect around 75,000 footfalls in PAMEX 2017.

**What other efforts are taken by the organisers to make it a best-in-class show?**

**Tushar:** PAMEX 2017 had participated in major printing exhibitions worldwide such as drupa 2016, Print China 2016, Label Expo 2016, Printing South China, Sino Corrugated and Folding Cartons, China Print 2017, Carton Tech etc.

Besides, AIFMP organised an International Media Week from August 3-6 at Holiday Inn, New Delhi. Media

and printing association Presidents and secretaries from eleven countries were invited to learn more about printing industry in India so that we get more visitor participation from abroad.

Press release and PAMEX Advertisements were seen in almost all commercial and association magazines. PAMEX 2017 was also well promoted in International Media.

Besides, the Ground arrangements are much better as we open two more Halls with much better facilities for the exhibitors as well as the visitors.

**Any message for our readers....**

**Tushar:** My message to visitors would be to welcome them to Mumbai for a fantastic show of latest trends working live. For visitors, it will be a complete gamut of print to witness.

A special conference is being organised by the NPES and BMPA on December 16 at the Lalit Intercontinental, Andheri East, Mumbai. The theme of the conference is "What Next" and there would be international speakers from all around the world.

Besides, NAEP Awards function on December 20 evening at the JW Marriott, Sahar Airport, Andheri East, Mumbai will also be a star attraction. Visitors can visit the Print Award Gallery at the Hall No 1 BEC on all four days of the exhibition.

## Behind the scene...

**Print-Packaging.com (P) Ltd. to professionally manage PAMEX 2017, Mumbai for the second time**

Print-Packaging.com (P) Ltd. is the organiser of niche exhibitions in packaging, package printing, converting, automation for packaging and supply chain segment of the industry. Initiating operations as a news and information portal for packaging and printing industry, the company entered into the world of trade exhibitions in the year 2002 with the very first edition of India Label Show. Since then,

there was no looking back. India Converting Show and India Flexo Show were also added to the event profile of the company in the year 2003.

Retaining major focus on packaging, Print-Packaging.com on its next step launched India Packaging Show as its annual event. India Converting Show, India Corrugated Show, India Flexo Show, Automation 4 Packaging, India Logistics Show, India Retail Show and Bulk Pack were the concurrently running events.

In the year 2009, the company brought all these niche events together to announce PackPlus as its flagship event. Covering packaging and allied industries to an extensive level, the event attained huge response from the industry in its very first edition held at New Delhi and created several landmarks with each progressive year.

Reaching another level of accomplishment the very next year, PackPlus launched its Southern edition – PackPlus South which brought Hyderabad on the map of packaging exhibitions. The show was shifted to Bengaluru for an in-depth exploration of the packaging markets in other Southern markets in another successful debut in April this year. It will now alternate between the two Southern cities every year.

After a successful PAMEX'15 in Mumbai, Print-Packaging.com (P) Ltd. is fully geared to manage the upcoming PAMEX 2017 show.

Team Print-Packaging.com

## International Media Week brings global preview for PAMEX 2017

**The promotional campaign for PAMEX 2017 started off with a big bang with an International Media Week, organised by All India Federation of Master Printers (AIFMP) in New Delhi from August 3-6, 2017. The first of its kind event witnessed participation from Bangladesh, Bhutan, India, Indonesia, Malaysia, Nepal and Thailand.**

**P**AMEX 2017 will be held from December 18-21, 2017 at Bombay Exhibition Centre, Goregaon, Mumbai. The promotional campaign successfully started off with the International Media Week, attracting media and industry associations from both home & abroad, the first-of-its-kind event which opened the Indian printing industry to the world. Here are the major highlights of the same:

### Indian Associations' Meet

AIFMP organised a joint meeting of printing & allied industries associations on August 3, 2017 at Holiday Inn, New Delhi. It was the first ever meeting of this kind held in the country. The purpose of the meeting was to discuss the issue of common interest and problems faced by printing and allied industries.

Representatives from Federation of Corrugated Box Manufacturers Association (FCBM), Association of Label Printers & Suppliers, Institute of Packaging Machinery Manufacturers of India (IPMMI), Newspapers Association of India, Label Manufacturers Association of India and Jalandhar Printers Association attended the meeting. The meeting was chaired by Prof. Kamal Chopra, then President, AIFMP.

The topics discussed at the meet included the state of economy & printing industry, identifying common issues that can be taken up jointly with authorities, developing mechanism for resolving inter trade issues, co-operation and support for industry events.

This initiative of organizing such meeting was taken by Prof Kamal Chopra and was well appreciated by all the attendees of the event. It was further decided to have a mutual co-operation and start a forum to discuss the issues of common interest.

Association and media representatives from Bangladesh, Bhutan, Indonesia and Malaysia were also present at the meeting,

besides Anand Limaye, then Honorary General Secretary, AIFMP and Tushar Dhote, Chairman, PAMEX.

### International Media Conference

To strengthen the mutual co-operation for the development and betterment of printing industry amongst the neighboring countries, AIFMP organised International Media Conference on 04 August. The association and media representatives from Bangladesh, Bhutan, India, Indonesia, Malaysia, Nepal, Thailand were present at the event. The idea and initiative of such gathering by AIFMP was well appreciated by everyone, especially the foreign participants. The representatives from International Associations shared the current printing industry scenario in their countries and underlined that such platform will definitely help share the expertise and advancements. Technova Imaging Systems and Chemline India Limited supported the conference as sponsors. Prof. Kamal Chopra, welcomed all the representatives and expressed his gratitude for supporting this initiative.

Hasina Newaz, Vice Chairman, Printing Industries Association of Bangladesh; Mughira Nurhani, President, Indonesia Print Media Association; Kelvin LEE Kat Min, Assistant Secretary General, Malaysia Printers Association and Madhav KC, President, Federation of Nepal Printers Association presented the printing industry scenario of their respective countries. While, Chrisnadi Purnomo, Managing Editor, Print Indonesia; Katatron Charoenprom, Asst Manager, The Thai Printers Magazine and Karma Nima, General Manager, Kuensel Corporation Ltd. Thimpu, Bhutan were also present for the conference.

One of the objectives to organize this gathering was to inform the global printing industry about PAMEX 2017. Tushar Dhote, in his presentation, highlighted the

encouraging response from industry that the event has received so far and also shared the plans of promotional roadshows scheduled in India and other countries. The International association representatives showed keen interest to host roadshows and bring delegates from their countries at PAMEX 2017.

Prof Dr Rajendra Anayath, Vice-chancellor, Deenbandhu Chhotu Ram-University of Science and Technology Murthal; Deepak Chawla, Head-Marketing & Corporate Communications, Technova Imaging Systems; Dr RN Goel, founder, Chemline India; CN Ashok, Managing Director, Autoprint Machinery and Abhishek Paul, Director of Marketing, APL Machinery Pvt Ltd also enlightened the gathering with their technical inputs and expertise in their presentations.

### Factory visit

Day 3 of the International Media Week started with a visit to one of the leading industry events PackPlus and CartonTech, organised by Print-Packaging.com (P) Ltd. The delegates were

welcomed and briefed about the event by Anil Arora, President, Print-Packaging.com (P) Ltd. All the delegates were taken through an extensive tour of the entire exhibition.

A factory visit to International Print-o-Pack Ltd. (IPP Group) was also organised for the foreign delegates. IPP is one of the renowned and leading houses for commercial & publication printing, packaging and stationery. Amila Singhvi, Managing Director, IPP Group was kind enough to welcome the delegates and shared about the company's expertise, journey so far and plans ahead with them. The delegates also had an opportunity to witness the on-going printing jobs in the factory.

### A visit to iconic Taj Mahal

AIFMP gave a send-off to all foreign delegates of International Media Week in a unique way by arranging a visit to TAJ MAHAL. All the delegates were excited to visit one of the Seven Wonders of the World. A tourist guide explained a brief history of Taj Mahal to everyone.

## Amritsar hosted the inaugural road show of PAMEX 2017

The promotional campaign for the most celebrated show in the printing industry PAMEX 2017 kick started off with its very first road show at Amritsar on 17th September 2017. AIFMP in association with Offset Printers Association- Ludhiana in support with several regional printing associations including Jalandhar Printers Association, Amritsar Offset Printers Association, Pathankot

Printer Association, The Association of Printers - Batala and Printing Press Association-Mukatsar Sahib launched its first road show out of many.

The Press Conference was organized to create awareness about AIFMP apex show PAMEX, which is going to be held on 18-21 December in Mumbai at Bombay Exhibition Centre, Goregaon, Mumbai and to create awareness on the major issues faced by Printing Industry. The coverage was wide spread and issues like GST, Ongoing Paperless Drive, Digital India & Printing, Growth in Printing Industry, Status of Printing Industry etc. were focal point of discussion. During the road show, Tushar Dhote, Chairman, PAMEX enlightened the gathering with the updates and opportunities at PAMEX 2017.

AIFMP has termed campaigns to go paperless as ill-conceived. Its office-bearers maintained that digitalization was itself large source of pollution, adding e-garbage to the fragile ecology, whereas paper was a biodegradable.

Tushar Dhote added, "Paper dissolves in the environment on its own without any negative impact. The world is battling with the menace of disposing of e-waste and printing would survive the digital onslaught." He added that paper mill owners were aware of the loss of trees for raw material of their industries. So they were equally keen on planting more trees as they were aware that their business would not be possible without trees.

Kamal Chopra, then AIFMP President, said, "Printing was rapidly growing industry across the world and the Indian printing industry is offering the second most employable industry in the world after China."

Currently printing industry is clocking annual growth between 15 per cent and 17 per cent last year and commercial printing has grown by nearly four per cent.

PAMEX 2017 through road shows is all set to cover over 50 grassroot towns in Maharashtra, Gujrat, Andhra Pradesh, Kerala, Tamilnadu, Karnataka and Uttar Pradesh. At the regional level, promotional events are planned at Lucknow, Indore, Ahmedabad, Banglore, Chennai, Hyderabad. It will also go international with the events in Dhaka and Colombo.

# EVENT PROMOTION

## Road show @ Ernakulam

As part of publicity campaign for PAMEX 2017, to be held from December 18-21, 2017 at Bombay Exhibition Centre, Goregaon, Mumbai, a Road show was organized in Kochi by Kerala Master Printers Association (KMPA) on Saturday, October 14, 2017 at Grand Hotel, M.G Road, Ernakulam. Around 120 members were present at the Road show. The newly elected President of AIFMP, AMSG Ashokan inaugurated the function. Hon. General Secretary of AIFMP, Arvind Mardikar and Vice President (South) of AIFMP, O Venugopal was also present at the road show. Chairman of PAMEX 2017, Tushar Dhote, gave a detailed presentation of PAMEX 2017 to the members of KMPA.

## PAMEX 2017 Road Show @ Kottayam

- More than 400 printers were present

The third regional road show for PAMEX 2017 was organized by Kerala Printers Association at CSI Retreat Centre, Kottayam on October 15, 2017. More than 400 printers attended the event.

The event was inaugurated by Former Chief Minister of Kerala Oommen Chandy. All India Federation of Master Printer's President AMSG Ashokan invited all the printers from Kerala to visit PAMEX 2017. Vice President (South) O Venugopal, Former President R Suresh and Former General Secretary CD Kumaravel were also present at the event.

# NAEP Awards continue to honour Print Excellence

-Two new categories @ NAEP Awards this year to be held on December 20, 2017

National Awards for the Excellence in Printing (NAEP), a flagship event of the All India Federation of Master Printers (AIFMP), will be held on December 20 along with PAMEX 2017. The 12th edition of NAEP will be hosted by Printers Guild, Nagpur. Here, Anand Limaye, then Honorary General Secretary of AIFMP and Head at India Printing Works, shares more about awards. Excerpts.

Anand Limaye

**Tell us something about the upcoming NAEP awards?**

**Anand:** This year onwards, the All India Federation of Master Printers has decided to hold the NAEP Award distribution ceremony every alternate year, to coincide with PAMEX. This would facilitate printers to send more entries as they would get two years instead of one year as in the past; besides a display gallery of the nomination entries would be displayed at the venue of PAMEX, which would be a major attraction at the show.

**How have these awards grown over the years?**

**Anand:** 20 years ago, these awards used to be distributed by Government of India by holding the Pan India competition among printers. The awards were

conferred by the President of India and were popularly known as President Award for Excellence in Printing. Later on, the same were stopped on the grounds of security. Thereafter, the All India Federation of Master Printers (AIFMP) constituted this award to encourage Indian printers to keep bettering their work in their journey towards excellence.

This year, the organising affiliate association, Printers' Guild – Nagpur, has introduced two more categories for the first time: (1) Non Woven Carry Bags, (2) Less than 50 GSM paper. These categories have been introduced to motivate many printers from their home district Vidarbha as many printers execute massive production in these categories.

**How many entries were received this year? Which category got the highest number of entries?**

**Anand:** Till today we have received more than 1000 entries. Due to Ganesh Chaturthi, Navratri and Diwali festivals, on printers' demand, the host association – Printers' Guild of Nagpur, has extended the date of submission till 31st October 2017. Hence the exact figure can't be given right now. But we are expecting more than

2000 entries as the major players viz JAK, Pragati, Parksons etc are yet to send the entries.

**How will the awards help the printers?**

**Anand:** Such recognition from the national level apex body will certainly give immense pleasure and satisfaction to the winners. At the same time it will motivate the young new printers to produce best quality jobs. I thank my predecessors in AIFMP who have shown the vision to constitute such awards.

**In your opinion, how is Indian printing industry faring as compared to global printing industry standards?**

**Anand:** I am proud to observe that from entries received, it can easily be said that the best in India are comparable, if not better, than the best in the world.

**Anything else you would like to add...**

**Anand:** I extend my compliments to the Printers' Guild President and his Team, as well as Team PrintPack to extend tremendous support to organize this Award Distribution Ceremony. It's a real challenge to organise such a grand multidimensional programme which involves coordination with printers Pan India, collecting their entries which really needs perseverance and arranging the transparent judging process. We also admire the spirit of PG members which is utmost essential for organising this 12th Edition of the National Awards for Excellence in Printing (NAEP) 2017 on such a grand scale, that too at a distant place like Mumbai.

## PAMEX 2017 welcomes Japan Printing Machinery Association (JPMA) on board

Makoto Nishioka from Japan Printing Machinery Association (JPMA) recently visited the Print-Packaging (P) Ltd office at Noida and confirmed its participation at PAMEX 2017 (December 18–21, 2017 at Mumbai).

The JPMA consists of 105 members, mainly the manufacturers and vendors of printing machinery, bookbinding machinery, paper converting machinery and its peripheral equipment.

During his visit, Makoto said, "I'm very optimistic about our (JPMA's) alliance with All India Master Printer's Association (AIFMP) and strongly believe that PAMEX 2017 is the right platform to venture in the Indian print industry. The larger Japanese companies from the industry have already marked their presence in India however this would be a great opportunity for the small and medium companies to

(L-R) Tushar Dhote, Makoto Nishioka, Anil Arora, Sangam Khanna, Sahil Kulkarni

participate at PAMEX 2017 and explore the Indian market."

"This would be a great start for co-operation between two associations and we expect much bigger participation from Japan in the coming editions of PAMEX. We would also like to invite PAMEX to have a booth at International Graphic Arts Show - IGAS 2018

happening at Tokyo to further promote the show and attract larger Japanese participation in upcoming editions of PAMEX," Makoto added.

"In India, the Japanese companies are present in large numbers in pre-press and press segment. No Japanese manufacturer of post press and converting equipment are present in India. At AIFMP we will study and identify what kind of Japanese equipment would be suitable for India in this segment," said Tushar Dhote, Chairman, PAMEX.

While, Sangam Khanna, President, Insight Communication & Print Solutions (which represent KOMORI in India); Sahil Kulkarni, Section Manager, Sakura International Japan and Anil Arora, President, Print-Packaging.Com (P) Ltd. who are the event managers for PAMEX, were also present for this meeting.

## New body elected for AIFMP

**A**MSG Ashokan (Jeyagraham Art Crafts, Sivakasi) takes over the reins of the All India Federation of Master Printers, as its President, New Delhi, India wef October 1, 2017. He takes over from Prof Kamal Chopra (Foil Printers, Ludhiana).

The following dignitaries have been elected as Office Bearers of the All India Federation of Master Printers, for 2017-18: Arvind Mardikar (AD Graphics, Nagpur) is the Honorary General Secretary; Maninder Singh (Escort Press, Amritsar) is the Vice President (North); Abhijit Sarkar (Zenith Offset, Kolkata) is the Vice President (East); Raveendra Joshi (United Multicolour Printers Pvt Ltd, Pune) is Vice President (West); O Venugopal (Anaswara Offset P Ltd, Cochin) is Vice President (South); Prakash Joshi (Laxmi Art Printers, Aurangabad) is the Honorary Joint Secretary; and Ashwani Gupta (Choice Books & Printer Pvt Ltd, Jalandhar City) is the Honorary Treasurer from October 01, 2017 to March 31, 2018. Vijay Mohan (Shalimar Offset Press, New Delhi) will be the Honorary Treasurer from April 01, 2018 to September 30, 2018.

AMMSG Ashokan

## First Education Excellence 2016-17 award conferred

**P**rof. Dr. Anjan Kumar Baral, senior most Professor, Department of Printing Technology, Guru Jambheshwar University of Science & Technology, Hisar has been facilitated the very first Education Excellence 2016-17 award of India by His Excellency, Governor of Punjab, VP Singh Badmore during the 237th Governing Council meeting of All India Federation of Master Printers (AIFMP), the apex body printers in India, at Amritsar. This award is conferred to Prof. Baral for his outstanding contribution to develop and popularize print education and research in India in the recent times.

Prof. Baral, brought laurels to this unique branch of technology through effective teaching & research related activities, establishing state-of-the-art facilities for effective practical exposure of students, organizing successfully numerous national & international level printing programs to benefit the students, researchers, and the printing community,

etc. He has acted as an instrumental force in bridging the gap between industry-institute partnerships besides numerous research publications. His sincerity, hardworking and optimistic views on the future growth and development of print education is highly appreciable. During the felicitation function, Badmore also released Prof. Baral's second book, Printing Process, which is jointly authored with Prof. Kamal Chopra, then President, AIFMP, New Delhi.

## International Packaging Conclave 2017

**P**rint-Packaging.com Pvt Ltd, organisers of PackPlus 2017, in collaboration with the ink major Siegwark, hosted the International Packaging Conclave 2017, on the sidelines of the PackPlus expo in New Delhi. The conclave under the theme 'Safe Packaging for A Better Tomorrow' had a host of keynote speakers from the industry and allied sectors who talked and discussed at length about 'packaging compliance' during the course of the landmark conclave.

The conclave was sectioned into three sessions. The first session was on Product Safety: Risk Assessment of Packaging Material, which was chaired by Ashish Pradhan from Siegwark India, with panelists including Barun Banerjee from Nestle India, Saikat Acharya from GlaxoSmithKline and others. In the follow-up session, Dr Joerg Peter Langhammer from Siegwark India hosted a panel of speakers with the discussion revolving around the topic Migration and Toxicology: A Threat To Consumer Safety. Dr Albert Delbanco from Siegwark India and Prof VP Sharma from the Indian Institute of Toxicology Research were among the panelists who took on the topic at a deeper and expansive level.

Panelists at the conclave

A crowd of delegates

The third session titled 'Packaging Compliance: Connecting The Dots' was chaired by Dr Albert Delbanco, accompanied by a panel of speakers comprising SN Venkataraman from ITC PPSD, Dr Joerg Peter Langhammer, among others. With all thought-provoking speeches, ideas and interactions carried across the three sessions, the conclave marked a successful discourse over 'packaging safety'. The panelists shared methodologies and processes to test and develop packaging standards, which in turn could reduce or eliminate contamination risks from packaging material, be it substrate, ink, adhesive.

The conference was attended by brand owners and a multitude of industry stalwarts, who were elated by the ideas on 'requirements for packaging safety.'

## AGS Transact @ PAMEX 2017

AGS Transact Technologies Ltd, with their 54 sqm stall, will be present with their value-add products, told Abhishek Chouhan of AGS Transact Technologies.

## Anand Book Suppliers @ PAMEX 2017

Anant Ringe of Anand Book Suppliers, a repeat exhibitor from PAMEX'15, is happy to participate again at PAMEX 2017. They deal in books, advertising, graphics, packaging, textile designing, wall papers, etc.

## Consumables @ PAMEX 2017

Kanan Graphics Pvt Ltd, has a 36 sqm stand at the show and according to Chetan S Shah, they are looking forward to a successful show. They are distributors for Arets Graphics, Avery Dennison, Pidilite, Printec Blankets, Toyo Inks, Ultra Tech etc.,

## Fujifilm @ PAMEX 2017

Fujifilm India Pvt Ltd has a huge 240 sqm stand at the show. According to Nisha Wadhvani of Fujifilm, they have still not yet finalized which machines they will be exhibiting.

## Good show for Namrata Graphics

According to Bhavin Shah/Naresh Shah of Namrata Graphics, they are looking forward to a good show. The company deals in Die-making, Binding, Laser, Wood Cutting machines etc. They earlier had a 24 sqm stand but they have now increased their stand size to 60 sqm.

## Hi-Tech Systems @ PAMEX 2017

Parag Shah of Hi-Tech Systems PFE P Ltd will be at PAMEX 2017 with a 35 sqm stand. Though they have not yet finalized which machine they will be demonstrating, Parag is very enthusiastic and look forward to the show. They deal in print finishing equipment.

## Konica Minolta India @ PAMEX 2017

KMI Business Technologies Pvt. Ltd will be one of the leading exhibitors in PAMEX. According to Nilesh Shah, they are looking forward to a good show, as they have an array of machines.

## Other exhibitors @ PAMEX 2017

Condor Systems, S. L. Kulkarni Cyril Graphics Pvt. Ltd., Stoosa, Malhotra Graphics, Print Graphics, etc are also looking forward eagerly for PAMEX.

## Paper galore @ PAMEX 2017

Kagaj Digital Paper Pvt Ltd will showcase digital media (matt & gloss, mirror coat card, ivory

card, gumming sheets; texture media (metallic texture card, texture card, metallic card and metallic paper); plotter media (plotter paper roll, plotter tracing roll, photo glossy & matt roll, drawing & canvas roll); labels (all purpose and self-adhesive labels); and copier paper. According to Mahesh Khuthiya, they are looking forward to a successful show.

## Speciality media @ PAMEX 2017

Advanced Speciality Materials LLP will showcase YUPO signage media and synthetic paper at the show.

## Stallion @ PAMEX'17

With a 60 sqm stand, Stallion Innovative Machines will offer machines for book binding / packaging industry. According to Alhad Gandre, CEO, they also do the R&D projects, etc.

## Taiyo Flexo press @ PAMEX 2017

Standard Printers Providers, in their 24 sqm stand, will be promoting TAIYO flexo press. According to Gaurav Sachdev, they are expecting good number of visitors from all over India.

## Used machinery @ PAMEX 2017

PANGRAPHICS Machinery / Indo Europa Trading Co, with their branch offices in Delhi/Surat, will offer second hand/used printing machinery at the show. Jitesh Doshi of Indo Europa mentioned that they are very much enthusiastic about PAMEX.

## Comprehensive range of overwrap films from Cosmos

Global leader in films for packaging, labeling and lamination applications - Cosmo Films - now offers a comprehensive range of overwrap films which include high shrink tight wrap, medium shrink, general overwrap and cable overwrap films.

The overwrap films offered are untreated both side heat sealable BOPP based films which not only offer protection to products packed inside due to their moisture barrier property but also enhance the pack optics because of their transparency, clarity and wrinkle free appearance. The high shrink tight wrap films offer shrinkage values in range of 9-11% and are meant for individual cigarette packs. Medium shrink films

offer shrinkage in range of 4-6% and are suitable for bundling individual cartons. General overwrap films are used for general purpose printing, pouching & packaging of snacks, bakery products; IV fluids overwraps, textile & hosiery overwraps etc. Cable insulation overwrap films offer excellent moisture barrier and protection from grease, oil and dust.

The films are capable of running at high speed wrapping machines. For instance, tight wrap films

enable seamless application at 350 to 380 packets per minute. They also offer excellent hot slip properties, high stiffness and good machinability.

Commenting on the development, Kapil Anand, head-label films exports, Cosmo Films said, "Though we mostly cater to food & beverage industry through our range of products, we are now glad to be offering products for tobacco industry as well. Apart from the primary benefit of moisture barrier, high shrink film's shrink ability enables tight wrapping of the cigarette packs that comes in handy for their easy dispensing from the vending machines."

Visit their stand at PAMEX 2017

## LineOMatic offers cut size sheeter with automatic ream wrapping

LineOMatic Industries offers Cut Size Sheeter with automatic ream wrapping. The cut size sheeter consist of shaftless unwinding twin reel stations, decurling unit, slitting unit, chopping unit, conveyor unit, collating unit, robot unit, ream wrapping unit, centralized control panel (PLC). It is an online paper reel to A4/A3 copier

ream making machine, with unlimited flexibility while operating.

Its Cut Size Ream Wrapping Machine is designed for high quality ream wrapping with fine paper. This machine is suitable to wrap A4, A3 and American legal & letter size. The machine is heavy duty, fully automated and comprised of infeed conveyor, wrapper roll unwinder unit, wrapper pulling and cutting unit, wrapper transport system, main wrapping unit and outfeed conveyor. It comes with optional Flexible Infeed Conveyor to suit plant layout; Flexible Outfeed Conveyor to suit plat layout; and Batch Code printer.

## Pravesha installs Autoprint Checkmate 50

Pravesha Industries Pvt Ltd (PIPL) has successfully installed Autoprint Checkmate 50 print inspection machine at their Hyderabad plant. The company is a one-stop-shop for all printing and packaging solutions for pharmaceutical industry. Under the leadership of B Sivaprasad Reddy, Chairman and co-founder of PIPL, the company has been established with stringent Quality Management Systems (QMS) and very

advanced countries directly or indirectly.

"We installed Autoprint Checkmate to cater to growing needs, speed up deliveries and to avoid human limitations to check minute print/finishing quality deviations. The equipment is working very well. It is running offline, but it has doubled our production of inspected products and boosted our confidence of supplying defect free products. Importantly this machine is used for 100% inspection of cartons for all

Extreme left: B Sivaprasad Reddy with team Autoprint

the parameters; text, colour, background, colour registration, die cut registration, Braille. It has thus helped us a lot in terms of production, delivery schedules and QMS for defect free output," tells Reddy.

"Even the service and after-sales service is highly appreciated. Autoprint has good

importantly obtained DMF for supplying to regulatory markets. Most of the produced cartons, labels, inserts, outserts, HDPE bottles, closures etc are exported to

training methodology, they regularly update softwares and retrain for the same periodically," he added.

## Scodix expands uncoated substrates offering

Scodix, the leading provider of digital enhancement solutions for the graphic arts industry, has bolstered its range of recommended media with new uncoated papers from leading international paper manufacturers. Already compatible with Fedrigoni uncoated paper, Scodix technology is uniquely capable of digitally enhancing uncoated papers keeping quality integrity.

"We want to make enhancement accessible to every brand on the market today. Adding these new stocks to our recommended media list brings us closer to that goal. Scodix digital technology not only makes short runs and versioning economically viable, but delivers products of outstanding quality and impact because brands can work with their own choice of substrates and applications and truly enhance their designs," states Amit Shvartz, VP Marketing at Scodix.

The new range of uncoated stocks include papers from Arctic Paper, Arjowiggins, Gruppo Cordenons SpA, Mohawk Paper, Favini and Neenah Paper, plus further options from Fedrigoni.

Shvartz adds, "Scodix works exceptionally hard to provide versatile, productive, quality presses, developed with customer requirements at heart. Our flagship press, the Ultra Pro with Foil, has nine different enhancement applications, some of which are simply not possible to reproduce with any other technology. Add to that the fact we can work with over 200 different substrates, including 36 foils, and now a compelling range of uncoated papers, Scodix has the most versatile digital enhancement press on the market today."

Scodix is represented in India by Monotech Systems Ltd. Visit their stand at PAMEX 2017.

## PrintFair 2018 to grow in stature!

After the success of the 2nd Edition of PrintFair in Bengaluru, the show comes back to Hyderabad from March 9-12, 2018 at Hitex Exhibition Centre. This time, the show is occupying Hall 3A and 3B of the centre and is spread across 6000 sqm.

In a bid to make the show the premier printing destination in South India, Telangana Offset Printers Association- TOPA has come on board as co-organisers. TOPA strives to take the printing and packaging industry to greater heights in business development and customer satisfaction with the active cooperation and participation of all members.

TOPA recently organized a conference in Hyderabad, focusing on the future of printing industry in India, where more than 500 printers attended the event.

"We are confident that PrintFair at Hyderabad will create the required awareness among our micro, small and medium category printers. This show will showcase the latest technological advances and production techniques in the printing industry and will help our members to grow their Business," said C Ravinder Reddy, President, TOPA.

"With our collaboration with TOPA, we are hoping to bring a better experience to our exhibitors and visitors," added Anil Arora, President, Next Events, organisers of PrintFair.

### Publisher's Note...

PAMEX 2017 is fast approaching. The organisers are trying their best to make it a world class show. It will be 50% bigger than the previous show.

Exhibitors are busy planning their display profile. We spoke to a few exhibitors and found them really enthusiastic about the show.

Online visitor registration has started and organisers are expecting good footfalls, somewhere close to 75,000.

The NAEP Print Awards Gallery would also be showcased at the show, where visitors can see the innovations and print excellence by their peer group.

All in all, it is a must-attend event for all. Let us all block our calendars from December 18-21 and be a part of this print extravaganza.

– Team - Pamex Newsletters

## New President for IPAMA

S Dayaker Reddy has been elected as the President of IPAMA, the Association of Printing, Packaging and Machinery Manufacturers, in its 105<sup>th</sup> Governing Council Meeting held at India Expo Centre, Greater Noida, Delhi NCR. His appointment follows the recent passing of the President Late HV Sheth, who passed away unexpectedly earlier last month.

Reddy is a highly experienced printing, manufacturing and marketing professional spanning over an illustrious career of 21 years at various reputed companies before starting his own ventures. Reddy, who holds an Engineering Diploma, is an alumnus of Govt Institute of Printing Technology, Secunderabad. Presently, he is the CEO for Gutenberg Machinery Manufacturers Pvt Ltd, MD of Omsri Saivani Secure Print Pvt Ltd and Director

of two more firms.

He is also actively involved with different associations and institutions for the betterment of the printing and packaging fraternity, like he is the GC Member of AIFMP, Co-ordinator for Telangana Offset Printers Association (TOPA), Mentor for Bharatiya Yuva Shakti Trust (BYST), Hyderabad, Expert Committee Member for community colleges – Government of Telangana and Syllabus Committee Member for Govt. Institute of Printing Technology (GIPT). He is also the President of GIPT Alumni Association.

## Industry stalwart Viren Chhabra no more

Viren Chhabra, Former General Manager and publisher of The Statesman in Delhi, and the Former President of the All-India Federation of Master Printers (AIFMP), passed away on September 14, 2017.

Born in 1927 in Punjab, Chhabra worked at The Statesman for 42 years after completing a technical diploma course at the London School of Printing. He

also founded The Printing Times, the official journal of the AIFMP, in 1977 and continued to serve as its Honorary Editor and Publisher for nearly four decades.

May his soul rest in peace!

## Printing veteran HV Sheth leaves for his heavenly abode

The Indian printing industry is saddened by the demise of a beloved print personality, leader and head of various organizations, Harsh Vardhan Sheth, popularly known as "Harshad Bhai" and "Sheth Saab," who passed away on July 27, 2017. Sheth was the Chairman of Delhi-based M/s Sheth Printograph Pvt. Ltd, popularly known as "Daya Printograph", and President of two renowned associations – IPAMA and Asia Print.

Born on February 20, 1942 in Rajkot, Gujarat, Sheth was the son of Late Shri Shantilal Sheth, a scholar of Jainism and Pali texts, and a life-long Gandhian, who started a printing press in Bewar, Rajasthan under Gurukul School, of which he was an administrator, to publish his own literary work.

Way back in 1986, the Indian Graphic Arts Industry was in a nebulous state,

rechristened as "Indian Printing, Packaging & Allied Machinery Manufacturers" Association known as IPAMA. As a testament to his organisational skills, he was elected the President of the Asia Print Association during China Print on 10 May 2017. It was a milestone in IPAMA's history, confirming the Indian association's presence in the international printing fraternity.

He is survived by his wife Meenakshi Sheth and three children – Neeraj Sheth, Sonal Sheth and Anjali Gupta. May his soul rest in peace!

## PACKPLUS 2017, NEW DELHI: A BIGGER & BETTER SHOW

*Around 80 product launches and more than 250 live demos of products witnessed during the expo*

Being a platform where industry people would catch every bit of latest technologies and solutions pertaining to total packaging, processing and supply chain, PackPlus 2017 this year had more than 375 exhibitors showing marvels of machines, materials and the whole allied products on a bigger and better show floor spread across the Hall 9-12 and 12A of Pragati Maidan in New Delhi. Here's a flashback of the landmark expo organised from August 03-06, 2017.

PackPlus 2017 pulled hordes of potential crowds of trade visitors comprising MSMEs, large enterprises and others, who gratifyingly explored the expo showing packaging solutions that come under all budgets, providing them fresh opportunities to kick-start new business. The expo pulled a huge crowd right from the first day—more than 7500 focused trade visitors thronged the expo on the first two days.

Key machines/products showcased by a host of leading manufacturers and suppliers from India and abroad during the four days of the expo were for assorted range of segments, such as paper bags, paper cups, non-woven bags, rigid boxes and others. Paper bag making machines, priced between INR 3-10 lakhs, were shown by some key exhibitors, namely, **Avtar Mechanical Works, RVM Controls, UP Group** (Shanghai), **UPG International Trading**, among others.

Capped within a price range of INR 5-15 lakhs, paper cup making machines presented by **AKR Machinery, Elegant International, Pritul Machines, Vardhman Packaging** and others at the expo were of advanced features, which would require little space for installation, ideal for people looking for new business prospects in the market. Demonstrating live at the show were lines of non-woven bag making machines, available in the range of INR 20-25 lakh, shown by some of the leading manufacturers, such as **Prosper Group, Fair Deal Engineers, Sahil Graphics** and others.

Priced a bit higher than others, approximately between INR 1.5-6 crore, rigid box making machines were also

the main crowd pullers at the expo. The exhibitors exhibiting such high-end packaging systems at the expo included **Zhongke India, NBG Printographic and 3S Graphic Solutions**.

### Key product launches

PackPlus 2017 had around 80 new product launches. Among them, a key launch was of **Ajit Industries Pvt Ltd (AIPL)**'s new Surface Protection Tape. Another key launch at the expo was from ATE—ViewAXIS Mega vision system, a next-generation web viewing system that delivers superior process monitoring, thus enabling operators to locate defects and take necessary action. The vision system is equipped with an energy efficient LED strobe light for sharp, accurate and high-resolution images at high production speeds.

At the expo, **Uflex** announced the launch of its Easy-Scoop-Lock-Tight Pitcher Bag that effortlessly dispenses controlled portions of the product packed inside. The 4-panel bag comes with a reinforced handle on the side gusset spelling tremendous ease of carrying.

**Elesa & Ganter**, one of the leading producers of plastic and metal products with unique designs, launched a line

of EBR-PN handles made of glass-fibre reinforced with polyamide-based technopolymer, grey-black colour and matte finish during the expo.

Introduced new at the expo, **Ace Products**, manufacturer and exporter of packaging machines and materials, unpacked a new range of packaging machines and materials, which included the Excelpack Series L Sealer (APLS 1520) and 2-in-1 Chamber Type Shrink Packaging Machine (APC 5540HD) as well as Purewrap Cling Film—a food grade cling film from Malaysia—which is manufactured using selected high-quality resins of 10 microns onward.

During the expo, **Vijaya Grafiks Inc/Prem India** announced their tie-up with the Italian company Ideal Tech, launching the latter's range of tank melting systems, such as Ideal Melt 5 and 12. These tank melting systems offer advantageous prices, optimal performances, reliability and modality. In addition, Vijaya Grafiks also presented the Ideal Tech ID Press Pur 2, a block melter to fill glue tank, alongside a newly introduced carton folding gluing system.

Yet another big launch at the expo was from **KODI**, which announced its new

Nuzen IR-377 inspection machine at the expo. Nuzen IR-377 is capable to run at 500 mpm and its key features include shaftless unwinder and rewinder for easy handling. The system is capable to run with both side roll movement. Nuzen IR-377 features accurate auto tension control with load cell (close loop). Another added feature of the machine is its accurate defect detector at inspection area. Launched on the other side was Axl 50i CIJ inkjet printer from **Domino Printech India**. The inkjet printer is designed for continuous production, to be maintained with optimum line availability as it will make no need for specialist skills or tools.

**NBG Printographic Machinery** announced the launch of a new Fangbang paper bag machine, which was carried out in addition to its existing Hongming automatic rigid box line. "Our collaboration with Fangbang has magnified our packaging machine portfolio with a new vertical—paper bag making. This (Fangbang) line is widely accepted globally for its eco-friendly, particularly in the countries where plastic bags are totally banned. The same will hold true in India in future as ban on plastic bags is fully implemented," said Nitin Garg, Director, NBG Printographic Machinery Co Pvt Ltd.

A new versatile SLITTO 450 slitter rewinder was what Faridabad-based **Vikas Engineers** launched. The machine is a duplex rewinding system designed for versatile productivity at optimum level. The added features in the slitter include differential shaft, touch screen interface, automated closed deep tension control, among others. In addition, SLITTO 450 slitter rewinder also features with unwind mechanisms like pneumatic unwind, digital age/line web guide system, so on.

#### Live demos

Among the attractions at PackPlus 2017 were the live demonstrations of more than 200 machines and technologies. **Naph Graphics'** live showcase of its high-speed SLITLINE 35 slitter rewinder pulled huge crowd. Designed to slit diverse range of materials, SLITLINE 35 slitter rewinder from Naph Graphics can handle material with maximum web length of 1300 mm at

the mechanical speed of 350 m/m.

Also, demonstrated live were a line of **Fair Deal Engineers'** non-woven machines at the company's stall. In addition to non-woven portfolio, the company also showcased mini offset machine and two-colour satellite bag printing machine live. In the portfolio showing live, the company also included other machines designed for envelope making, fully automatic box type bag making machine, flexo printing machine, variable data printing machine, answer sheet numbering machine and others.

#### Machines sold

Many exhibitors at PackPlus 2017 sold their machines during the expo. Of them, **Naph Graphics** sold their ever-demanded SLITLINE 35 slitter rewinder to Swam Packaging in Delhi. "SLITLINE 35 can handle materials of any type, which may include plain or coated films, as well as metallised film of 12-200 microns," said Ashu Bharaj of Naph Graphics. SLITLINE 35 was introduced last year at the PackPlus 2016.

On other side of show floor, **Zhongke India** sold its TL-780 foil stamping and die-cutting machine to Dimple Packaging, Ludhiana. TL-780 is designed for hot stamping, die-cutting, pressing convex, creasing, etc. The machine is composed of four parts—main motor, hot stamping, auto feeder and electric equip. It takes maximum sheet size of 780x560mm and minimum of 280x220 mm. During the expo, Banke Bihari Packaging finalised CRM Solution from **Flexibiz ERP**. Flexibiz ERP products, such as CRM Solution, are unique and specially designed for the packaging industry. The company has been providing software solutions to a number of leading packaging majors like Uflex Limited, since 1988. GPS location tracking features, leads import by scan picture of business cards and job estimation modules are very convincing modules in the CRM Solution, which is available as mobile apps on Android, iPhone as well as desktop applications which are very user friendly. Zed Pack, sister concern of Banke Bihari Packaging, shall also use the newly ordered Flexibiz CRM Solution.

# Print Business Outlook Conference 2017

Organised by NPES, in association with Bombay Masters Printers Association (BMPA), Print Business Outlook Conference 2017 will be organised on December 16, 2017 at the Lalit Hotel, Mumbai. A compelling agenda of timely topics presented by top industry experts is set to engage participants in lively discussion. Please find below tentative topics and speakers:

09:30 am to 10:00 am -

#### Registration

10:00 am to 10:20 am

#### • Can We Turn Air Pollution in to Printer Ink?

Nikhil Kaushik, co-founder of Graviky Labs

10:20 am to 10:50 am

#### • The Future of Augmented Reality in Print and Journalism

Robert Hernandez, Associate Professor of Professional Practice, USC Annenberg School of Journalism

10:50 am to 11:30 am

#### • Opportunities and Challenges in Digital Printing

Yoshinori Koide, Executive General Manager- PP & IP Marketing, Konica Minolta India

#### • Opportunities and Challenges in Digital Print for Packaging

A. Appadurai, Country Manager - India & Sri Lanka, HP Indigo & Inkjet Press Solutions

11:30 am to 11:50 am

#### EFI

11:50 am to 12:50 pm

#### • "Future of Print Design Trends - a Designer's Perspective Panel"

Moderator: Faheem Agboatwala, Managing Director, Hi Tech Printing Services Pvt Ltd

Panellist: TBC

2:00 pm to 02:20 pm

#### • Print Production Problems Keeping You Up at Night?

Snehasis Roy, Director - Technical, Times of India

2:20 pm to 02:40 pm

#### • How to Survive in an Age of Changing Technology

Jeff Protheroe, VP Asia Pacific, Middle East and Africa, Aleyant Solutions LLC

2:40 pm to 03:00 pm

#### • Optimizing and Automating Photobook and Photo Print Production

Raymond Duval, Director, Ultimate TechnoGraphics

3:00 pm to 03:20 pm

#### • Are you and your customers seeing the same colors? Why you should use standard color viewing conditions

Robert McCurdy, President, GTI Graphic Technology Inc.

3:20 pm to 03:40 pm

#### • Indian Book Market - What's Next?

Vikrant Mathur, Director Nielsen Book India and Asia Pacific

3:40 pm to 04:30 pm

#### • ASK THE EXPERTS: Listen to top printing industry experts in a live interactive Q&A
