TUESDAY, MARCH 28

MARCH 27 - 30, 2023, BOMBAY EXHIBITION CENTRE, GOREGAON, MUMBAI

*Ribbon-cutting ceremony @ PAMEX 2023*

PAMEX 2023 WELCOMES STRONG LINE-UP OF 450+ EXHIBITORS

LIVE running machines, innovative products & solutions, special zones...
PAMEX 2023 is attracting serious quality visitors at the show.

PAMEX 2023 was officially declared open amidst a host of dignitaries and who's who of the industry. The industry leaders at the inauguration included Raveendra Joshi, President AIFMP & Chairman of PAMEX; Prof Kamal Chopra, Past President, AIFMP & President, WPCF; Manoj Mehta, Past President AIFMP & President FAPGA; Raghabendra Baruah, General Secretary, AIFMP; P Chander, Imm & Past President, AIFMP; and Anil Arora, Director, Print-Packaging.com Private Limited.

In his inaugural speech, Raveendra Joshi appreciated the overwhelming response which the first day of PAMEX 2023 received from the industry people. Referring to the revival of the market and return of normalcy in business post-pandemic, Prof Kamal Chopra, Past President AIFMP & President of WPCF, said, "Post pandemic, we are now on the growth path and now is the time to get

*Lamp lighting ceremony @ PAMEX 2023*

up and do profitable and successful business."

While, Manoj Mehta, in his inaugural address, mentioned that the expo has expanded its show floor and increased the number of halls as compared to the previous editions. He added that the expo is featuring special zones for special products and technologies such as

Artificial Intelligence (AI), flexible packaging, among others. Featuring more than 450 exhibitors, the show is presenting a largest gamut of live running machines and innovative products and solutions for the industry. There are so many new exhibitors at the show.

Other dignitaries who were commemorated during the opening

of the landmark expo included Nitin Narula, Vice President (North), AIFMP; Bidyut Ranjan Nag, Vice President (East), AIFMP; Anant Vishwanath Joshi, Vice President (West), AIFMP; Rahul Mahajan, Joint Secretary, AIFMP; Rakesh Sodhi, President, IPAMA; Sandesh Tere, President, Screen Printer Association of India (SPAI); Manish Shah, Vice President, ICPMA; and Manish Jain, Vice President, FCBM. Tushar Dhote, Co-Chairman, PAMEX 2023 concluded the inaugural session with the handover of bouquets to all dignitaries.

At PAMEX 2023, the visitors are witnessing live demos of more than 250 machines and launches of more than 100 new products at the show. Few exhibitors even sealed deals for their machines on the first day itself. This is just the beginning, gear up for more happenings at the show!

Memory launches Lay Flat Book Binder

Memory Repro Systems has launched the first ever Lay Flat Book Binder manufactured by an Indian company. "We are proud to introduce this first ever indigenously manufactured book binding machine at the PAMEX 2023," says Sanjeev Chadha, Managing Director, Memory Repro Systems Private Limited. This new Lay Flat Book Binding machine is perfectly engineered for binding a diverse range of books, such as photo albums, children's lay flat books, etc.

Other range of pre and post press machines and equipments on display at the stand of Memory Repro Systems include rigid box making machines, gluing machine with conveyer, solution for magnet pasting in fancy rigid boxes, semi automatic sheet pasting machines, semi-automatic magnetic pasting machines, box forming machine, corner taping machine, among others. Sanjeev informs that they are quite happy about the return of PAMEX after the long pandemic break.

Canon India launches imagePRESS V1000 and imagePRESS V900 Series

At PAMEX 2023, Canon India launched a new generation of the imagePRESS series, comprising V1000 and V900. The new series, suitable for light and mid production print environment will offer users features such as versatility, viability, high-volume printing, vibrant print quality, and is a perfect visionary print partner for business growth.

Speaking on the occasion, Manabu Yamazaki, President and CEO, Canon India, said, "With transformation as a key strategy for us this year, we are proud to unveil the new imagePRESS V series that also reflects our commitment to aligning products and solutions with customers' changing expectations and industry trends. As industries increasingly move towards automating their tasks, the focus has shifted from not only increasing productivity, but also increasing flexibility and quality in the output."

Integrated with POD-SURF (Surface Rapid Fusing), the imagePRESS V1000 effectively maintains a consistent print speed of 100 ppm on coated and heavy media types up to 400g/m² (gsm), sustaining high efficiency when printing complex and mixed media jobs.

Perfect for light volume production, the imagePRESS V900 series produces monthly print volumes of up to 500,000 A4 pages, and consists of three different entry-level models, the V900, V800 and V700 with print speeds of up to 90/80/70 A4 pages/minute respectively.

Marcello Strada s.r.l from Italy seeks distributors in India

Italy-based manufacturer of luxury photobook binding systems, Marcello Strada s.r.l, is expanding its global presence by entering the Indian market. With distributors in 122 countries worldwide, Marcello Strada s.r.l is now seeking established distributors in the photo imaging space in India.

All Marcello Strada s.r.l's machines are pneumatically powered and require no specialized knowledge to operate. They are manufactured in Italy to meet all stringent EU requirements. More than 800 machines currently operate worldwide.

"We are excited to bring our luxury photobook binding systems to the Indian market along with acid-free adhesive cardboard sheets," said Alessia Strada, Director of MarcelloStrada s.r.l. "We are confident that our precision-made machines and related consumables will meet the needs of print service providers of the luxury photobook market in India and we look forward to establishing strong partnerships with them through our channel partners."

EXHIBITORS' NEWS

Emerging Graphics launches EngView package & display designer suite

Emerging Graphics has introduced award-winning CAD/CAM software EngView suite for the package & display designer. Tushar Pandey, Director, Emerging Graphics India Pvt Ltd, remarks, "This newly launched EngView designer suite is specialised software for boxes and POP/POS display applications. It supports a wide range of materials for folding cartons, corrugated boards, rigid boards and others."

Powered by an award-winning parametric design technology, EngView features smart drafting and realistic 3D virtual modelling to easily take designers from the 'DREAM' to the real concept. Tushar mentions that a comprehensive library of parametric components and designs of EngView combined with Adobe Illustrator integration deliver a robust kit that enable professionals to CREATE innovative packaging and display graphic applications.

Drupa focuses again on Indian community

At PAMEX, Sabine Geldermann, Director drupa, Portfolio Print Technologies, Messe Dusseldorf GmbH, shares, "It is fascinating to meet the Indian manufacturers at the show."

Drupa is in full swing and we are building momentum. We have close to 1,000 exhibitors and we are so pleased to see that India is amongst the top 10 exhibiting nations. Since 1951, when drupa took place the first time, India has been an important exhibiting nation and visiting nation. We are getting prepared and looking forward to meeting Indian community again in May 2024. We are celebrating the India Day again at drupa and AIFMP is going to have their Board meetings and bringing in a huge community to drupa. So it is going to be an iconic event again."

Sabine Geldermann

On asking about the promotional plans for drupa in India, she shares, "In 2021, we had a digital experience of a 4-day virtual drupa but it cannot be a substitute of onsite event. We are in touch with major associations in different parts of the world for our promotional plans and India certainly is set for the same for autumn this year. The dates for promotional conferences will be available soon. We will be here soon to address and invite the nation to come again at drupa."

As a message to the Indian community, Sabine says, "Don't miss the opportunity as we are focusing on innovation, creativity, sustainability in printing and circular economy and of course the ongoing digitalization. If you wish to know where the industry is heading, then drupa will certainly give a competitive advantage."

HP India demonstrates Indigo 7K Digital Press @ PAMEX 2023

HP India uses PAMEX 2023 to demonstrate the flagship Indigo 7K Digital Press, with endless opportunities. Installation base of HP Indigo Presses keeps increasing across the country. Jaipur Printers has recently installed an HP Indigo 15K Digital Press with OneShot to cater to the digital and packaging segments. Alok Jain of Jaipur Printers said that their investment in the new HP Indigo Digital Press is for their expansion into the digital domain to tap into the upcoming trends of personalised and variable data printing.

Alok mentioned that 'quality' is one of the primary aspects that made them get the new HP Indigo Digital Press. The HP Indigo Digital Presses offer media versatility, so that Jaipur Printers is not limited to one segment but can deliver a gamut of specialised jobs on commercial printing, photo printing and packaging. Moreover, the company is now not limited to running art paper on the new HP Indigo Digital Press that can print on plastics for packaging, non-tearable media and canvas for photo, and coloured paper and textured paper for brochures.

Standard Mechanical Works introduces automatic dual rigid box making machine

Standard Mechanical Works (Fresta Machinery and Allied Solutions) introduces a line of Fresta rigid box making machines at PAMEX 2023, among which the company highlighted PC-8040A automatic dual rigid box making machine as the key showcase. The machine is designed to take up paper size of 120–1000mm (L) x 80 – 780 (W) mm up to thickness of 80–300 gsm. It has dual positioning of maximum box size of 350(L) x 200(W) x 80(H) mm.

"Our key product, PC-8040A, can produce box of minimum size 50(L) x 50(W) x 15(H) mm and maximum 500(L) x 400(W) x 120(H). Charan Sabharwal of Standard Mechanical Works comments, "This PC-8040A automatic dual rigid box making machine serves the purpose of two rigid box making lines."

Gayathri Machinery presents next-gen Swiss creasing, perforating & cutting machine

PAMEX is a profound platform for Gayathri Machinery for introduction of innovative products and solutions. The company introduces Multigraf CPCxPro, a next-generation Swiss-made photo book creasing, perforating & cutting machine. Trade visitors in every edition of the expo are thrilled to grab new finishing solutions and product at the stand of Gayathri Machinery.

"At PAMEX 2020, I was strolling through the isles and came across a Swiss-made Multigraf machine that claimed to crease—both positive & negative creases—in one pass, and that too with minimal human intervention. I was thoroughly impressed with the quality and robust build of the machine. When I heard the price, I was taken aback and wondered whether the machine would make financial sense," says Faheem Agboatwala, MD, Hi-Tech Printing Services, Mumbai.

Faheem Agboatwala

Faheem continues, "After owning and using Multigraf for three years now, we have done over 4.6 million crease impressions, and I can tell you that the machine is extremely accurate, robust, and worth the money spent. In hindsight, I say that it was a good decision, and our team has immensely benefited from the machine, not just because of its ease of use but also its consistent quality and fast speed. My team and I would not hesitate to recommend the Multigraf CPDuo machine to people who need high-quality print finishing. My best wishes to Multigraf and Gayathri Machinery." Hi-Tech Printing Services is a three-decade-old niche printing and packaging firm. The company produces extremely high-quality work, mostly for export markets, with a focus on providing their clients the international quality using printing and finishing machines from the global market leaders.

Monotech Systems celebrates installations of over 200 RICOH Digital Production Presses at PAMEX 2023

At PAMEX 2023, Monotech Systems announces its successful installation of over 200 RICOH Digital Production Presses within 18 months. This milestone reflects the company's commitment to providing high-quality and efficient digital printing solutions to its customers. Monotech's partnership with RICOH has enabled the company to offer its customers cutting-edge digital printing technology. The RICOH Digital Production Presses are designed to deliver exceptional performance and quality and are ideal for a wide range of printing digital, commercial, photo and packaging applications, including books, brochures, direct mail, labels, security printing and more.

Monotech has been awarded the Top Achiever Award by RICOH for its exceptional performance. This prestigious award is presented to RICOH's top-performing partners who have demonstrated outstanding sales growth, innovation, and commitment to customer satisfaction. "We are delighted to have achieved this milestone in such a short period," said TP Jain, MD of Monotech Systems, adding, "Our success is a testament to the dedication of our team and our commitment to providing our customers with the best digital printing solutions available. We look forward to continuing our partnership with RICOH and bringing even more innovative printing solutions to the market." Monotech displays all range of RICOH Digital Production Presses at PAMEX 2023.

"We are overwhelmed with the response received from the industry and we are grateful to all our customers for having faith in us. With this trust we would achieve many milestones," says Ajeet Pareek, VP - Sales, Digital Products and Solutions, Monotech Systems Limited.
